

PRODUCT INFORMATION

Product Description	ESD Marking Tape with Printing 25mmx33m
Product Code	5233-0001
Color	Yellow
Size	25mmx33m
Model	M04-T-003-YE

DESCRIPTION

Made of PVC film + PET laminated with an acrylic adhesive, both side antistatic treated, 8 colours available.

FEATURES

- Extremely low peeling voltage.
- Easy to handle and clear removal.
- High visibility

APPLICATIONS

- Use to mark off floors to designate ESD controlled area.
- Ideal for many lanes and safety markings & color coding.

PHYSICAL PROPERTY

Properties	Unit	Value
Film Type	-	Antistatic PVC film + PET laminated
Adhesive type		Antistatic Acrylic
Total thickness	μm	145 ± 10
Other Color available	-	Green, Blue, Red, White, Orange, Black, Black/Yellow
Strength of adhesive	gf/inch	Min 500
Surface resistance (both side)	Ω/25cm	10e7-9
Static decay time	Sec	Max 0.1
Peeling Static Voltage	V	Max 100

** Remark: 1,000mm x 33m

** Antistatic PET Film(15um)

** PVC sheet(100um)

** Antistatic Acrylic Adhesive (40um)
